Westminster (capacity 35)

Thursday, October 21, 2010

12:00 p.m. to 4:00 p.m.

City of Westminster Reclaimed Water Treatment Facility

13070 N. Huron, Westminster, CO 80234

Who Should Attend?

Municipal water providers including, water utility managers, conservation specialists, water resources managers, consultants, elected or appointed officials, building managers, design engineers, local government personnel, and others throughout the state to help select the most appropriate conservation measures for use in water resource planning.

What Will Be Covered?

A free workshop to introduce Colorado WaterWise's Guidebook of Best Practices for Municipal Water Conservation in Colorado. The workshop will offer detailed descriptions of specific water conservation measures, program elements, regulations, policies, and procedures that can be implemented by municipal water providers to ensure reliable and sustainable water supplies for future generations.
