

BISHOP-BROGDEN ASSOCIATES, INC.

WATER RIGHTS & WATER RESOURCES ENGINEER

Bishop-Brogden Associates Inc. (BBA) is a consulting firm specializing in water rights, water resources and ground water hydrology. Located in Englewood, CO, BBA provides services to clients in the Western United States, mostly within the State of Colorado. BBA's clients include a variety of public and private entities including municipalities, ranchers, local and federal government, and others. BBA celebrates 30 years in business in 2010.

We are seeking applications for a position as an entry level water rights and water resources engineer from applicants with the following skills and qualifications.

- BS or MS in water resources, civil or agricultural engineering, hydrogeology or related field.
- Strong written and verbal communication skills.
- Proficiency with database and spreadsheet software; GIS experience is a plus.
- Knowledge about and experience with Colorado water rights and water law.
- Registration as an EIT, or plans to pursue licensure as an engineer or geologist.
- Seeking to fill position immediately, but will also consider May 2010 graduates.

BBA offers competitive salaries, provides a complete benefits package, supports professional development and offers a comfortable and flexible work environment. Applicants should provide a letter of interest and resume to bba@bbawater.com, or fax to (303) 806-8953. For more information, please see our web site at www.bbawater.com.
